

AAA

speckle park

ANNUAL BULL | FEMALE | GENETIC SALE

June 8, 2024

11am - Ivyhome - Haly Creek QLD

What is a Speckle Park?

In demand. Globally.

Speckle Park is one of the fastest growing beef cattle breeds in the world. Developed in Canada, they are a carcass-orientated yet maternal purebred. They are polled, of British-bred origin, and moderate in frame size. Speckle Park express tremendous hybrid vigour in a first cross, and they are widely known for high yields and softness of carcass.

Boldly different.

Speckle Park cattle come in four distinct colour patterns: speckled, leopard, white with black points, and solid black. Their colour pattern is what attracts some to the breed, while for others it is a mere bonus for the highly valuable attributes they lay beneath their attractive hide. Speckled- and leopard-coloured animals are genetically the same in terms of the inheritance of colour patterns.

Fertile. Hardy. Healthy.

Early calf vigour, hardiness in dry conditions, and excellent feed conversion rates are three major attributes of the Speckle Park breed. They adapt well to -40 deg C Canadian Winters, through to +40 deg C Australian Summers. They are early-maturing, and get back in calf despite adverse weather conditions. There is also a growing demand for Speckle Park bulls as "dairy beef" sires in the dairy industry.

Impressive meat.

When it comes to Speckle Park, the animals are attractive but it is what's underneath that is the true prize! Speckle Park produce high carcase dressing percentages – 60%-plus is common in a first cross – and great meat eating quality. The meat is juicy, flavoursome and tender.

Docile. Low Stress.

For many Speckle Park breeders, what they value most about this breed is their quiet temperaments. A key to greater weight gains and a safer, low stress working environment is to work with docile cattle, and Speckle Park – managed properly – tick that box. Their more moderate frame size assists in making them enjoyable to work with.

Integrity with Breed Standards.

Speckle Park International members measure their cattle more than most other beef breeds – all registered animals are DNA parent verified to both sire and dam, and are tested for three key traits prior to registration. Animals born with horns or red coat colouring cannot be registered.

Boost your bottom line: Pasture raised minimal assistance, commercially focused cattle

Commercial focus is key to AAA success. Theresa and myself have purchased genetics from NZ, Canada, USA and Australia using proven genetics with proven performance. We at AAA have a strong focus on producing powerful productive females and with many of them having won blue ribbons at most major Royal Shows here in Australia.

We have some very strong family lines in our herd including the likes of Prairie Hill Fancy Pants 93J, Notta-Pho Finish 54P, Notta Frontline 303x, Stardust and Codiak Putnam females and we aim to breed phenotypical appealing types to satisfy our client requirements.

The traditional moderate frame of the Speckle Park females range 550 to 650 kg and bulls around the 700 to 800 KG and a larger frame Speckle Park female ranging from 700 kg to 850Kg and bulls 800 to 1100 kg.

Regardless of the frame size and sex we at AAA aim for breeding cattle with that extra deep body with good length, large EMA, high IMF and structurally sound and our females need to have good fertility and milk. In our opinion bulls need a strong sire's head, smooth shoulders, large testicular development and above all, an excellent temperament in the scale of 1 or 2.

Theresa and myself aim to have long term relationships with our clients based on honesty and trust. We do our best to ensure our customers are successful in their own breeding program. Our farm near Kingaroy is available for farm visits to see our breeding program and we have an open door approach and happy to show you our success and at times some failures.

We can be contacted on 0423 868 351 regarding any information you may require regarding Speckle Park with no obligation.

bulls

At the sale, all bulls will come with a certified vet certificate on the fertility results from a crush-side vet inspection. This ensures that buyers have confidence in the fertility of the bulls they purchase, as the results are from a certified and independent veterinarian. It's crucial to have this information when selecting a bull for breeding, as fertility is one of the most critical factors in a successful breeding program. With the certified vet certificate, buyers can rest assured that they are investing in high-quality and fertile bulls.

females

When it comes to the females on offer, the seller is taking extra care to ensure that they are productive and healthy animals. All females will be pre-tested, and their productivity levels will be assessed by a certified vet. This information will be made available at the end of May, giving potential buyers a clear idea of what they can expect from each animal. By providing this level of transparency and care, the seller is demonstrating their commitment to offering top-quality animals for sale.

genetics

All embryos available at the sale are stored at the farm and will only be released after payment. A conception rate guarantee will be provided, with 1 pregnancy guaranteed for every 2 embryos for purchase, 1 pregnancy guaranteed for every 3 embryos, and 2 pregnancies guaranteed for every 4 embryos purchased. The impregnation process must be carried out by an approved technician, and pregnancy tests must be conducted at 60 days by the same technician. In case of any pregnancy failures, the seller will replace the embryos with similar genetics or value.

HOW TO REGISTER with

Follow these easy steps to start bidding:

Visit www.stocklive.com.au using your desktop, laptop, iPad, iPhone or Android device. NO App required.

Select the **bid** icon beside the sale you wish to bid on.

If you're new, select **register**, and complete the form with all your details, **accept sale conditions**, select **create bidder registration**.

You will receive an email from StockLive. Select "**Confirm my bidding account**" to set your password and **accept** Bidder Account Terms & Conditions and Privacy Policy followed by **create my account**.

Congratulations! Your StockLive account has been created and your bid request is pending. You will be notified via email when your request to bid has been approved.

Existing users, follow steps 1 & 2, select **login**, enter your details followed by the **request to bid** icon beside the sale you wish to bid on and then **accept** the terms.

On Sale Day, follow steps 1 & 2, select **enter auction** to watch, listen and purchase when the sale is flashing **LIVE**.

Invoicing and delivery will be carried out as per your registration details by the respective Selling Agents.

T09 Extreme has quite the impressive pedigree! With his ample length, depth, and structural correctness, he is an excellent choice for the Queensland market. Those large testicles are a definite plus for breeding purposes. His extra frame size makes him an ideal candidate for a stud aiming to enhance frame size or for a commercial farm seeking top-notch quality in their bulls.

T06 is a full brother to AAA Q12 and has consistently produced low birth weight calves ranging from 32kg to 38kg in our 2022 program. His abundance of depth and thickness suggests excellent genetics for producing robust offspring. The fact that his full brother was crowned Grand Champion bull at the 2022 EKKA and fetched a remarkable \$30,000 speaks volumes about the quality of their lineage. A bull like T06 Frontline certainly is a valuable asset to any breeding program or commercial farm looking to enhance their stock.

Senator has been an integral part of our herd as the sire for our 2023/24 breeding program. His selection for structural correctness and outcross genetics indicates a focus on breeding robust and diverse offspring. With a number of his calves now on the ground, it's clear that he's been making a positive impact on our herd. The fact that he's the sire of AAA S05 calf, which is featured in our sale, speaks volumes about his ability to produce quality progeny worthy of market attention. Senator has been a valuable asset for our breeding program, contributing to its success and growth.

T19: Titon is a promising young bull in our sale line-up. Despite his youth, he carries extra frame while retaining softness, which is a valuable combination in breeding stock. His excellent temperament is certainly a desirable trait, making handling and management easier. Additionally, his impeccable pedigree adds to his appeal, suggesting strong genetics and potential for producing high-quality offspring. AAA Titon has a lot to offer to prospective buyers looking to enhance their herds with a well-rounded and genetically superior bull.

Outside agents

We understand that as a buyer, you may already have a long-standing relationship with your own selling agent. At AAA Specklepark, we value your preferences and respect your existing arrangements. We have chosen Elders as our selling agent based on their exceptional service levels and professionalism.

If you decide to work with your own selling agent, we are more than happy to cooperate and collaborate with them. In such cases, we offer a 3% commission on the sale of animals, provided that our agents are notified in writing at least 24 hours before the sale day.

However, if your agent attends the sale day or registers at our open day and purchases animals on your behalf, we offer an increased commission rate of 5%. To qualify for this higher rate, your agent must be registered with us prior to the sale.

Our intention is to facilitate a smooth and transparent buying process for all parties involved. We value the relationships our buyers have established with their agents and aim to provide fair and competitive commission rates that align with industry standards.

If you have any further questions or require clarification on our commission structure, please don't hesitate to reach out. We are here to assist you throughout the buying process.

T12 Zazu is tailor-made for Queensland conditions, particularly suited for larger frame females. With plenty of length and depth, he embodies the robustness needed for thriving in such environments. His commercial attributes make him an ideal choice for producers seeking bulls that excel in both performance and profitability. Moreover, his excellent scrotal development underscores his reproductive efficiency, further enhancing his appeal as a breeding sire.

T08 has some impressive genetics flowing through his veins. As a half-brother to the previous bull and with AAA M17 Fancy Pants as his dam, he's certainly born from top-tier stock. AAA M17 Fancy Pants, being a multi broad ribbon winner and the most powerful female in our herd, brings a wealth of quality and strength to the table. This combination is clearly evident in AAA T08, showcasing the best traits of both his lineage and his dam's exceptional genetics. With such a strong foundation, AAA T08 undoubtedly has the potential to make a significant impact in any breeding program or commercial operation lucky enough to acquire him.

T02 Dart is a half-brother to the previous bull. With a larger frame and possessing all the other desirable traits of his half-brother, AAA T02 Dart offers a slightly different type while still embodying the excellence of his lineage. This diversity in type within the same genetic line can be advantageous, allowing for broader options in breeding and catering to varying preferences and needs within a breeding program.

T07 is a classic example of a moderate Speckle Park bull, embodying the breed's characteristic traits. With plenty of depth, he brings robustness and muscle to his progeny. This type of bull is often sought after for its balance between size and efficiency, making it well-suited for a variety of breeding programs and commercial operations.

T14 has a strong topline. We think he will develop into a well-balanced individual with typical traits that Speckle Park cattle are known for. This strong topline indicates good muscling and structural integrity, which are highly desirable attributes in breeding stock. As he matures, he is likely to showcase the characteristics that make Speckle Park cattle stand out, such as docility, high meat quality, and the breed's distinctive appearance.

T27 Midnight is a standout bull, catching the eye with his impressive depth, great topline, and overall balance. These traits are indicative of his potential to develop into a high-quality breeding sire. With Thundertruck as his sire, known for producing early to mid-maturing calves with plenty of vigor, T27 Midnight inherits valuable genetic characteristics for efficient growth and performance. Breeders looking to enhance their herds with cattle that exhibit early maturity and strong performance traits.

T37 carries an impressive pedigree, being sired by none other than AAA N28 – a Grand Champion Speckle Park bull, a top performer who ranked in the top 5 in the interbreed at the EKKA. This lineage suggests a strong genetic background with a history of excellence. His dam, Stardust K57, adds further weight to his genetic credentials, being recognized as one of the powerful females in our herd. With such parentage, T37 likely inherits a combination of superior genetics, athleticism, and desirable traits that are essential for breeding top-quality cattle. Breeders looking to elevate their herds with proven genetics and a track record of success would find T37 to be an attractive prospect.

T10 Extreme is a bull built for covering ground efficiently, with his larger frame and plenty of leg. Bulls with this type of build are often prized for their ability to move effectively. The added size and length in his frame gives him the capacity to support greater muscle mass and produce offspring with similar traits. This could be particularly beneficial for breeders aiming to introduce size and endurance into their herds or for commercial operations

T13 is a bull with a lot of potential and excitement surrounding his development. His agility, likened to that of a cat, suggests he possesses grace and athleticism, which are important traits in a breeding bull. Additionally, having plenty of shape indicates good muscling and structural correctness, both of which are important for overall functionality and performance. The anticipation to see how he matures and develops over the next year speaks to the high expectations placed upon him. Breeders are likely eager to witness how he progresses and fulfils his promise as a valuable asset to their breeding programs.

T17's balanced temperament is a key asset, making him adaptable to various breeding objectives and herd management strategies. A bull with a calm and easygoing demeanor is not only easier to handle but also less likely to pass on stress-related traits to its progeny. This versatility makes T17 valuable to a wide range of breeders.

T01. This bull is all style, very smooth with great structure. He is the calf out of R01 our top female that was sold for \$20,000 last year and is sired by Thunderstruck. T01 is a great sire for stud or commercial cattle producers. His calves will be early-maturing type ... an asset to any purchaser.

T34's development is indeed promising, particularly given his age. His well-balanced build and softer type indicate that he's on the right track, exhibiting traits that are highly sought after in breeding stock. A bull with a balanced physique and a softer type typically signifies good muscling and structural integrity, which are crucial for long-term breeding success. As T34 continues to mature, his potential is likely to become even more pronounced, making him an attractive option for breeders aiming to improve their herds with quality genetics and traits that contribute to overall productivity and profitability.

optimal condition

As a breeder of stud and commercial cattle, I must admit that I had a fondness for well-fed bulls and cows. However, I have also learned from experience that there is a price to pay for excessive fatness. While we all desire well-fed animals, it is crucial to ensure that they maintain their ability to fulfill their primary purpose, which is breeding. Whether it is serving cows or successfully getting pregnant and producing calves, this reproductive function should not be compromised.

When you view our animals, please keep in mind that our aim is to breed productive animals that have longevity. Overweight bulls can face issues such as increased risk of injury and decreased semen quality, which in turn can negatively impact pregnancy rates. In the case of heifers, excessive fatness can have an even more detrimental effect.

All our animals are bred in Queensland, specifically suited to thrive in our local environment. We understand the importance of balance in feeding, ensuring our animals are in optimal condition for breeding while avoiding excessive fat accumulation that could hinder their reproductive capabilities.

Our commitment is to provide you with animals that are not only well-fed but also capable of fulfilling their breeding potential. We prioritise their long-term health, functionality and productivity. If you have any questions or concerns regarding our approach to feeding and breeding, please feel free to reach out.

STAR BANK LACERTA 68L (Speckled)
WATTLE GROVE 68L KARA E19 (ET) (Speckled)
WILDWOOD KARA 4K (Speckled)

S53 Kara is a larger framed heifer, with plenty of length and good neck extension. Comes from strong pedigree families with AAA M24 and Frontline 303X on the sire side and on the dam side is Fancy Pants and the famous Kara 4K. She has been running with T02. Ideal heifer to breed the larger frame bulls that we need in QLD.

T06. This girl is very similar in type to the heifer Ronnie but completely different genetics. A real easy doer and will develop further into something special. T06 is in calf to AAA N28 Grand Champion Bull and ranked top 5 in the Interbreed at the EKKA. This is a reluctant sale.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.

(b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.

(c) A buyer is bound by these terms and conditions by bidding at auction.

2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors, agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.

(b) When used in these terms the expressions "companion animals" means all animals originating from a property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.

3. The following applies in interpreting these terms and conditions:

(a) The following words have the following meanings:

Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;

Livestock means animals auctioned pursuant to these terms and conditions; and

Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions

(i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and

(ii) plus any GST added in accordance with clause 12.

(b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.

5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.

6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.

7. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.

8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.

9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is

not in the best interests of the vendor and need not give reasons for doing so.

10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.

11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:

(a) the purchaser's name; or

(b) the bid card number which identifies the purchaser; or

(c) the name of the person on whose behalf the successful bid was made; and

(d) the Property Identification Code (known as the "PIC") of destination.

12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.

13. The vendor warrants that the:

(a) vendor has (or will have) the right to sell the livestock at the time of delivery; and

(b) buyer will obtain title on completion of the buyer's obligation under these terms and conditions.

14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.

15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in a written agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.

16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.

17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.

(b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.

(c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.

18. (a) Subject to this clause the sale is complete on the fall of the hammer.

(b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:

(i) delivery is taken by a representative of the buyer;

(ii) departure of the animal from the purchaser's delivery pen; or

(iii) one hour after the last animal is:

a. in the case of pre-sale weighing, sold; or

b. in the case of post-sale weighing, weighed.

(c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
(d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.

(e) This sub-clause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, through delivery to and from the scales, to the buyer's delivery pen and on to the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This sub-clause does not apply if the agent makes an announcement to that effect prior to sale.

19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.

(b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.

(c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner the female was pregnant on that date.

(d) For cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard account to the purchaser's account on the NLIS database no later than midnight on the day of the sale.

(e) Where livestock have a food safety or market eligibility status derived from the NVD and/or the NLIS/ERP database, the agent will inform the buyers by presale catalogue in conjunction with vendor branding and/or announce the status prior to the offering of those lots.

20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:

- (a) does not acquire title to the livestock;
- (b) holds the livestock as bailee only for the vendor;

- (c) must act in a fiduciary capacity in its relationship with the vendor;
- (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
- (e) is responsible for the safety and well being of the livestock;
- (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
- (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.

21. The buyer agrees that:

- (a) clause 20 creates a registrable security interest under the personal Property Securities Act 2009 (PPSA);
- (b) the buyer acknowledges the rights of the vendor (and/or the agent is clause 23 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
- (c) the livestock are collateral for the purpose of the PPSA;
- (d) to the extent permitted, the buyer waives any right the buyer has under the PPSA to receive notices;
- (e) the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to these terms and conditions; and
- (f) if payment is not made in according to clause 15, but delivery is made to, or possession obtained by, the buyer or its representative, interest may be charged at the rate usually charged by the agent for overdue accounts on any amounts which remain owing at any time.

22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.

23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.

23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.

23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.6 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.

23.4. Title to the livestock does not pass to the agent or a nominee of the agent unless the agent, by written notice to the vendor, notifies the vendor that it is to be transferred to the agent or a nominee of the agent.

23.5. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:

(a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and

(b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.

23.6. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).

23.7. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:

(a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and

(b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.

23.8. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.

23.9. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:

(a) by this clause 23, other than as it expressly provides; or

(b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.

23.10. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.

24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.

(b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.

(c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.

25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose

of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

(b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and treat livestock in accordance with any other or additional requirements of animal welfare legislation specific to the State or States in which livestock are consigned, managed, received, transported and treated in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.

27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:

(a) pass DAFF and other regulatory authority requirements and inspections at the time of slaughter; (DAFF refers to Federal Government Department of Agriculture, Fisheries and Forestry);

(b) are of merchantable quality;

(c) carry an NLIS device in accordance with State law;

(d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in the National Vendor Declaration, the livestock will have those characteristics or will be fit for the particular purpose or market; and

(e) all information in any National Vendor Declaration provided by the vendor is true, complete and correct in all material respects.

28. In the event of a breach by the vendor of the vendor's warranty and provided such

breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.

29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.

30. In the case of a breach by the vendor of the vendor's warranty then the vendor will

also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.

31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:

(a) the buyer will be entitled to delay payment for the price of all livestock in that lot; or

(b) the vendor has the option, at the vendor's cost, of collecting the companion animals and returning them to the vendor's property; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.

32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:

(a) any error, by the auctioneer, of transcription of information from the National Vendor Declaration completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;

(b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and

(c) any failure by the auctioneer to disclose prior to bidding, and in the presale catalogue, that the vendor has failed to provide a National Vendor Declaration that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.

34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by the relevant government department. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the certificate issued by the relevant government department, existed prior to the fall of the hammer.

35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.

36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:

(a) a certificate is issued by the relevant government department which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;

(b) the certificate is received by the selling agent either in its original form or by fax by 5:00pm on the 7th day after the fall of the hammer; and

(c) if the condemnation is due to chemical residue the certificate follows testing in a laboratory approved by the relevant government department which establishes maximum residue limits in excess of the Australian limit.

37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of the following:

(a) bruising,

(b) fever,

(c) partial condemnation, or

(d) emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY STATE LEGISLATION

NSW Legislation

Property, Stock and Business Agents Act 2002 Warnings

Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

(i) to abstain from bidding; or

(ii) to bid to a limited extent only; or

(iii) to do any other act that might prevent free and open competition.

Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmanian Legislation The auctioneer must not appear to acknowledge a dummy bid. A buyer must not give, agree to give or offer a gift or other consideration to a person for abstaining from bidding and a person must not accept any gift or consideration for abstaining from bidding. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition. Western Australian Legislation - Auction Sales Act 1973 s31 NOTICE

It is an offence to:

(i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;

(ii) abstain or agree to abstain from bidding as a result of such a promise;

(iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;

(iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or

(v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.

thank you

Thank you for considering our breeding program and sale animals. We greatly appreciate your interest and support. We understand the importance of seeing our animals in person, and we would be honored to have you visit our farm during one of our open days. It provides an excellent opportunity to witness the quality and characteristics of our Specklepark animals first hand.

In addition to the farm visits, we have also prepared a YouTube video showcasing the live lots on offer. It offers a virtual glimpse into the animals and genetics available. We believe that these visual resources will provide you with a comprehensive understanding of the exceptional offerings we have.

If you are able to attend our open day, we kindly request that you provide us with your contact information, including a text or email, for catering purposes. This will allow us to ensure that your visit is as comfortable and enjoyable as possible.

Should you have any further questions or require additional information regarding any of the lots, please feel free to reach out to me directly at **0423 868 351** or via email at **denis@aaaspecklepark.com.au**. I am here to assist you and provide any assistance you may need.

Once again, we appreciate your interest in our breeding program and sale animals. We look forward to the possibility of welcoming you to our farm or assisting you further. Your support means a great deal to us, and we are committed to providing you with exceptional livestock and service.

OPEN DAY: FRIDAY 7 JUNE – 9am to 3pm
AUCTION: SATURDAY 8 JUNE 2024

Inspection 9am • Auction commences 11am

At our upcoming **on-farm sale on 8 June**, we will be offering a selection of top-quality Speckle Park cattle for sale. This is an excellent opportunity to add outstanding genetics to your breeding program and take advantage of the exceptional traits that Speckle Park cattle are known for, including excellent marbling, docility, carcass and feed efficiency, plus fertility.

Leading up to the sale, we will be hosting an **open day on 7 June from 9am till 3pm**, where you can view the cattle available prior to purchase and ask any questions you may have about their genetics, performance, and suitability for your breeding program.

We are excited to showcase our herd and offer you the chance to purchase top-quality Speckle Park cattle at our on-farm sale on 8 June. Don't miss out on this unique opportunity to add exceptional genetics to your herd and enhance your breeding program.
